Indoor Air Quality

HVAC

Lighting

Refrigeration

Benefits to your business:

Cut costs. When your equipment is efficiently managed, you can put the money and time saved back into your business.

Spend less time on day-to-day facility management so you can focus your time on more important things.

See the health, performance, and energy efficiency of your facility. Take control of your building anytime, anywhere on the Web or our mobile app.

AssetCare provides a complete, all-in-one solution that yields ongoing energy savings for your business.

We take care of everything

- ✓ Continuous HVAC and indoor air quality management
- ✓ Energy management plan via setpoint monitoring and automatic adjustment
- ✓ 24/7 monitoring and help from our team is just a call away
- ✓ Check in on your building or adjust as you see fit via mobile app
- ✓ Optional refrigeration monitoring and food safety compliance

Get Started today with a free energy assessment:
BayREN Business.org

Here's how it works:

01

Assess Your Needs

We work with you to survey all the sites you'll need connected.

02

Connect Your Assets

We take care of installing the hardware, at no cost to you.

03

24/7 Monitoring

We monitor your building 24/7, manage adaptive controls and send instant notifications of any issues.

Solano EDC, a public-private, nonprofit, dedicated to the economic growth of Solano County, is pleased to announce new programs that will benefit businesses and residents throughout Solano county. We have partnered with leading organizations in the fields of transportation and energy conservation to bring transportation alternatives, microloans, energy assistance, and planning programs to the business community.

Find out more about our efforts here: SolanoEDC.org

Supporting Small and Medium Business

BayREN Business provide rebates, financing, and one-stop-shop technical assistance to ensure small and medium businesses can leverage all available energy saving programs. Our goal is to support the resilience of your businesses by lowering energy and maintenance costs while improving the look and feel of your facility.

BayREN Business is an innovative new program that provides small businesses with energy-efficient lighting, HVAC, and refrigeration equipment at no out-of-pocket cost to you. That way, you can update your business with no impact on your budget.
